Professional Summary

Full-stack software developer with hands-on experience in Laravel, React, REST APIs, and database-driven systems. Proven ability to design and deliver real-world applications including POS, CRM, Visitor Management, and Tender Management systems. Experienced in both academic and client-based projects, with a strong interest in scalable backend systems and modern web technologies.

Experience

TOTALOFFTEC   **Dhaka, Bangladesh**
Industrial Trainee (Industrial Training)   *5 Apr 2023 – 13 May 2023*
- Developed multiple functional web and mobile applications used for internal demonstrations. Worked on API development and automation tools for testing.
- Built RESTful APIs and assisted in automation testing workflows.
- Contributed to full-stack development using Laravel and React Native.
- Designed UI mockups and promotional materials using Figma and Canva.
